

# *Fast Food Restaurant Sales Analysis Project*

EXCEL & POWERPOINT BUSINESS DASHBOARD

PREPARED BY: ANJALI VISHWAKARMA

# Project Introduction

- This project analyzes the sales performance of a Fast-Food Restaurant using Excel.
- It includes 200 transactions covering details such as Item, Region, Total Sales, Discounts, and Profits.
- The main goal is to identify top-selling items, profit trends, and regional performance.

# Dataset Overview

- Time Period: January–February MARCH 2025
- Total Records: 200
- Columns Included: Order ID, Date, Customer, Region, Item, Quantity, Unit Price, Total Amount, Discount, Profit
- Regions Covered: North, South, East, and West
- 10 Food Items such as Burger, Pizza, French Fries, and Cold drinks.

# Dashboard Charts Summary

- > TOTAL SALE BY ITEM
- 3 MONTHS SALES
- PROFIT BY REGION
- TOP 10 CUSTOMERS
- PROFIT SHARE BY ITEM

The dashboard was built using Excel PivotTables and Charts.

These visuals help in understanding which products contribute most to sales and profits.

# *Insights & Findings*

- PIZZA AND BURGERS ARE THE TOP-SELLING ITEMS.
- NORTH REGION RECORDS THE HIGHEST REVENUE.
- AVERAGE DISCOUNT GIVEN: 5%.
- HIGH DISCOUNT SLIGHTLY REDUCES PROFIT MARGINS.
- CHICKEN WINGS OFFER THE BEST PROFIT PER ITEM.

# Conclusion

THE FAST-FOOD RESTAURANT DATA ANALYSIS USING EXCEL SHOWS STRONG SALES TRENDS IN POPULAR ITEMS.

BY MONITORING SALES AND PROFIT PERFORMANCE THROUGH DASHBOARDS, MANAGEMENT CAN MAKE DATA-DRIVEN DECISIONS SUCH AS PRICING, PROMOTIONS, AND INVENTORY PLANNING.

THIS PROJECT DEMONSTRATES PRACTICAL EXCEL AND POWERPOINT BUSINESS ANALYTICS SKILLS.

THANK YOU
